CSA pick-up is from 4:00 - 8:00 p.m. every Wednesday from May - October at Dearing Country Farms. Pick-up can also be done at our booth from 7:30 -9:00 at the Downtown Bloomington Farmer's Market every Saturday morning. To ensure quality and reduce spoilage, shares need to be picked up during the allotted times. Unless PRIOR arrangements have been made, you will forfeit that weeks share.

Please realize that as a garden matures and weather fluctuates, quantity and quality vary during the season. As the season progresses and more produce develops, your quantity and selections typically increase. However, weather is obviously a factor when growing produce, and even though it is out of our control, we do our best to manage our gardens and provide you with a quality product. Understand that nature is unpredictable and may sometimes impact your share. By signing this form you acknowledge and agree to our Farm and CSA Policies and Expectations. Information about these policies can be found on our website or by contacting us.

We guarantee our products, so if you are ever dissatisfied, let us know and we will do what we can to make you happy. We will always honor your request for a refund of the remaining shares, but with a \$50.00 fee to cover expenditures of share planning and share allotment.

After filling out and signing this form, mail it along with payment to our address listed at the top of this page. If you have any questions or concerns please visit our website, call or email us.
